# Esraa Al-Hamrawy

## Frontend Developer

Mobile: +201100281107
Email: esraa889675@gmail.com
LinkedIn: www.linkedin.com/in/esraa-hamrawy
Address: Giza/6th of October city

## Summary

Highly motivated Frontend Developer with over two years of experience building responsive, user-centric web applications and internal business portals. Proven ability to collaborate across departments to analyze requirements and deliver solutions through the full development lifecycle. Expert in converting design mockups into functional, high-quality interfaces using JavaScript and React. Seeking to leverage my strong frontend foundation and direct experience with intranet and document management systems to transition into a SharePoint-focused role. Eager to apply and expand my skills in SharePoint development, integration, and user support.

## Education

Bachelor's Degree Education majoring in Mathematics Tanta University I 2014 - 2019

- Department: Mathematics
- Grade: Good

### Professional Experience

**Frontend Developer | Plennix Software | [MAY 2025 - Current]**

- Develop and maintain responsive user interfaces for the Odoo ERP platform, utilizing modern frontend concepts.
- Leverage React.js principles for building component-based, interactive features within the Odoo framework.
- Customize and extend Odoo's frontend using Odoo's native JavaScript (OWL Framework), Vanilla JS, and Bootstrap to create seamless and user-friendly experiences.
- Ensure cross-browser compatibility and mobile-responsive design for all developed components and pages.

**Junior Frontend Developer | URANIUM Software | [JAN 2023 - APR 2025]**

Developed and maintained front-end code for complex internal business systems, gaining valuable experience directly relevant to SharePoint portal development and business solution implementation:

❖ **Intranet Portal (HR/Employees Management):**

- **Engineered a smart objective tracking system** featuring a multi-stage approval workflow, requiring sequential sign-off from Director-level management and HR, which automated and streamlined the employee goal-setting process.
- **Translated complex business** needs into functional, user-centric solutions, demonstrating a strong ability to analyze requirements and implement business solutions.
- **Collaborated closely with HR and management to** align the portal's functionality with departmental needs, ensuring high user adoption.

❖ **Document Management System:**

- Built user interfaces for a system dedicated to organizing, storing, and tracking electronic documents, providing a solid foundation for SharePoint's core capabilities.
- Gained experience in structuring information for easy retrieval and management.

❖ **Violation Management System:**

- Implemented front-end logic for a structured, workflow-based business application, demonstrating hands-on experience with business process automation.

❖ **Full Lifecycle Participation & Collaboration:**

- Actively participated in all phases of the system development lifecycle, **from requirements analysis and design to development, testing, and deployment.**
- **Worked closely with cross-functional teams** including back-end developers, QA testers, and business analysts to ensure the delivery of high-quality, integrated products.
- **Provided ongoing support and incorporated feedback** post-deployment, refining solutions based on user input.

**Internship at URANIUM Software** **[ 1 Jan- 30 Sep 2022]**

- Collaborated with senior developers to implement and maintain front-end functionalities.
- Gained proficiency in converting design mockups into functional, responsive user interfaces using HTML, CSS, and JavaScript.

**Freelance UI Developer (**Dead Sea Cosmetics for Skin Care Products**) [1 Nov- 8 Dec 2021]**

- Developed the user interface for a public-facing e-commerce website.
- **Website:** https://bloom.com.jo/ar/

## Courses & Certificates:

**Front End Development (React Framework)**

Route Academy | 2023

**Programing Fundamentals Diploma**

Route Academy | 2023

**Front End Development Track**

IT Share Academy I 2021

**English Diploma**

Harvard Bussing Center I 2021

**Training ICDL V5 Modules**

Harvard Bussing Center I 2021

**Front End Development Track**

UDACITY - One Million Arab Coders I 2020

## Technical Skills

- **Web Fundamentals:** Semantic HTML, CSS, Sass/Less, Responsive Design (Media Queries)
- **JavaScript & Frameworks:** Core JavaScript (ES6+), DOM Manipulation, React (Components, State, Props, Router)
- **Development Tools:** Git, GitHub, Visual Studio Code, Browser Developer Tools
- **Relevant Conceptual Experience:**
    - Internal Portal Development
    - Document Management System UI
    - Business Workflow Implementation
    - Full System Development Lifecycle (Analysis, Design, Dev, Test, Deploy)
    - Cross-functional Team Collaboration

## Soft Skills:

### Adaptability

- Willingness to learn and adapt to new technologies and frameworks.

### Collaboration

- Ability to work effectively in a team environment.
- Willingness to seek and incorporate feedback.

### Communication:

- Clear and effective communication skills, both written and verbal.

- Ability to articulate technical concepts to non-technical stakeholders.

**Time Management:**

- Capacity to manage and prioritize tasks effectively.

## Languages

Arabic: Native.

English: Good.
